in collaboration with

DR. B. R. AMBEDKAR OPEN UNIVERSITY

INFORMATION BROCHURE

About Healthcare Health care is one of the fastest growing and largest service sectors in India. Existing health care organizations are expanding by opening hospitals in new service areas and new organizations are entering with state of art equipment, latest technology and marketing strategies. Consequently, competition in the health care sector is on the rise. Hitherto, available options were limited to health care consumers. But they have now more and better options. Added to this, increased incomes and awareness levels are driving the consumers to seek quality health care. The providers in turn need to be more innovative in their approach and offer quality services at competitive prices. They are therefore increasingly confronted with the challenges to ensure cost effective quality care at affordable prices. Besides, India is also eyeing for global health care market to emerge as one of the possible destinations for international patients. All this necessitates a specially trained cadre of professional management graduates in health care.

Objective of the Programme The main objective of this Programme is to train young graduates as hospital and health care administrators with necessary theoretical and practical inputs.
